MUNENDRA KUMAR

DevOps Engineer

Etah, Uttar Pradesh, India | +91 6398873897 | munendrarajput.999@gmail.com | linkedin.com/in/munendra09 | github.com

PROFESSIONAL SUMMARY

Entry-level DevOps Engineer with hands-on experience in Linux, AWS, Docker, Kubernetes, CI/CD, and Terraform. Skilled in automating deployments, managing cloud infrastructure, and supporting production application environments end-to-end. Proven track record deploying and maintaining full-stack applications (Java Spring Boot, Node.js) with secure SSL configuration, reverse proxying, and custom domain management. Eager to contribute to reliable, scalable, and efficient DevOps practices while continuously expanding technical expertise.

TECHNICAL SKILLS

Cloud Platforms (AWS): EC2, VPC, IAM, S3, EBS, CloudWatch, ALB, NLB, ECR, EKS, Lambda, CloudFormation, Route53, RDS, Auto Scaling, SNS

CI/CD & Version Control: Jenkins, GitHub Actions, Argo CD, Git, GitHub, CI/CD Pipeline Automation

Containers & Orchestration: Docker, Kubernetes (EKS), Helm, Ingress Controllers, ConfigMaps, Secrets, Cluster Autoscaler

Infrastructure as Code: Terraform, Ansible, Infrastructure Automation

Security & Access Management: AWS IAM, Kubernetes Secrets, Role-Based Access Control (RBAC), SSL/TLS (Let's Encrypt, Certbot)

Scripting & Operating Systems: Bash, Python, Linux, Windows

Monitoring & Logging: Prometheus, Grafana, CloudWatch, ELK Stack

Web & Networking: NGINX, Apache HTTPD, Apache Tomcat, Load Balancing, High Availability, DNS Management

PROFESSIONAL EXPERIENCE

DevOps Intern | Dvanta Technologies, Delhi NCR, India *Apr 2026 – Present*

- Designed and maintained end-to-end CI/CD pipelines using Jenkins, automating build, test, and deployment workflows and reducing manual deployment effort.
- Managed source code repositories using Git and GitHub, implementing branch strategies and collaborative development workflows across the team.
- Supported production environments, performed root-cause analysis, and participated in incident resolution to maintain high system availability.
- Deployed a static website on Cloudflare Pages with automated Git-based deployments and global CDN support for improved load times.
- Configured a custom domain using GoDaddy and managed DNS records through Cloudflare to ensure secure and reliable website access.

PROJECTS

Cab Booking Application Deployment — WizzCabs (wizzcabs.com)

- Built and configured a production-ready Ubuntu VPS environment, installing and configuring MySQL, JDK, Maven, Node.js, Jenkins, Apache2, PM2, and Certbot.
- Deployed a Java Spring Boot backend and Node.js frontend; configured an Apache2 reverse proxy, custom domain, API subdomain, and SSL certificates via Let's Encrypt (Certbot).
- Created and configured a production MySQL database, user roles, and application connectivity for secure data management.
- Implemented Jenkins Freestyle CI/CD pipelines with Git integration, access control, and role-based automated deployments for both production and development environments.
- Tools: Jenkins, Maven, Apache2, Git, MySQL

Academy Portal Deployment — LuckyTech Academy (portal.luckytechacademy.in)

- Deployed the LuckyTech Academy Portal on a GoDaddy VPS using Docker, with an Nginx reverse proxy, custom domain, and Let's Encrypt (Certbot) SSL for secure HTTPS access.
- Developed a deployment automation script to build the Java backend with Maven, create a Docker image, and deploy the application in a Docker container.
- Deployed the frontend on Vercel with Git-based automatic deployments and configured a custom domain.
- Hosted the MySQL database on GoDaddy Deluxe Hosting and integrated the frontend, backend, and database into a production-ready environment.
- Tools: Docker, Nginx, Vercel, Maven

Static Website Deployments — GoDaddy & Cloudflare

- Deployed and managed a static website on GoDaddy Deluxe Hosting with custom domain (luckytechacademy.in) DNS configuration.
- Deployed the SV Life Care static website on Cloudflare Pages with GoDaddy custom domain(svlifecare.com), DNS, email configuration, and SSL setup.

EDUCATION

B.Sc., Computer Science | RMPSSU, Aligarh *2023 – 2026*
